SAMANDAR KHODJIYEV

Backend Software Developer

samandarkhodjiyev@gmail.com **Daejeon,**South Korea /
linkedin.com/in/khodjiyev2o / github.com/rahmonov

EXPERIENCE:

Software Developer
Unity-SPA
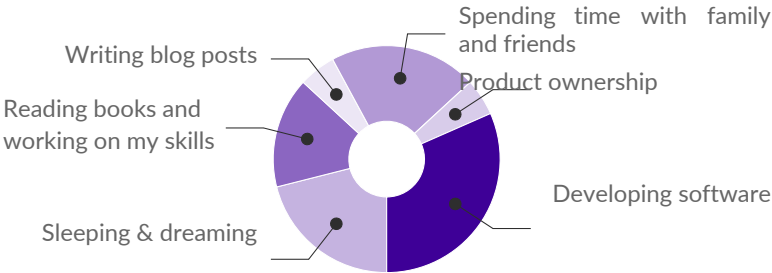

December 2022–Ongoing ½Santiago, Chile

• Wrote and owned new services in Python and deployed them to AWS

• Proactively monitored,identified, and fixed system performance issues

• Dockerized all of the applications and migrated the whole
infrastructure from one AWS account to another

• Refactored the whole Django codebase to match the industry's
best practices, specifically Radoslav Georgiev

• Built React Native version of the web page built in React for
mobile applications

Back End Developer
Meduzzen

September 2022–December ½ Kyiv, Ukraine

• Built user management services in FastAPI

• Optimized the database queries almost using 50% in a Django app

• Regularly attending talks about clean code, automated tests,
and industry news and best practices from Senior Developers

• Wrote Unit and End-to-End Tests

• Dockerized all of the applications and migrated the whole
infrastructure to AWS

• Setup the CI/CD pipeline with GithubActions and optimized image built
time from 300 seconds to almost 10 seconds

A DAY OF MY LIFE

Writing blog posts

Reading books and
working on my skills

Sleeping & dreaming

Spending time with family
and friends

Product ownership

Developing software

LIFE PHILOSOPHY

"Hardwork always pays off"

MOST PROUD OF

Initiative I showed
to tackle hard problems for which we
did not have time

Meduzzen's Growth
from a few people to 35 awesome
engineers

International experience
in Chile and Europe based companies

STRENGTHS

Hard-working   Fast-learner
Ambitious

Python.   Django   React React Native
AWS   DevOps
